ICONOGRAPHY

I used Bootstrap icons. Bootstrap icons follow a consistent design and visual aesthetic that integrates well with other Bootstrap components. This ensures that the icons look consistent and professional throughout the application. In addition, Bootstrap icons are designed to be responsive by default, meaning that they will automatically adjust to the size of the screen and device on which the web page is viewed.

This is going to be the home icon of my gym's cafeteria.

This is going to be the home icon of my gym.

This is the icon we will use so that clients can access our gym's WhatsApp.

This is the icon that we will use to allow clients to access the gym's Instagram.

This is the icon we will use for clients to access the gym's Facebook page.

This is the icon we will use for clients to log in to our application.

This is the icon we will use to let new customers know where our centres are. So, it will take us to a location.

This is the icon we will use to search for

This is the icon we use to go to the top of the page.

This is the icon we will use to continue to the next page.

This is the icon we use to delete or cancel something.
