CREATE A REPOSITORY ON GITHUB

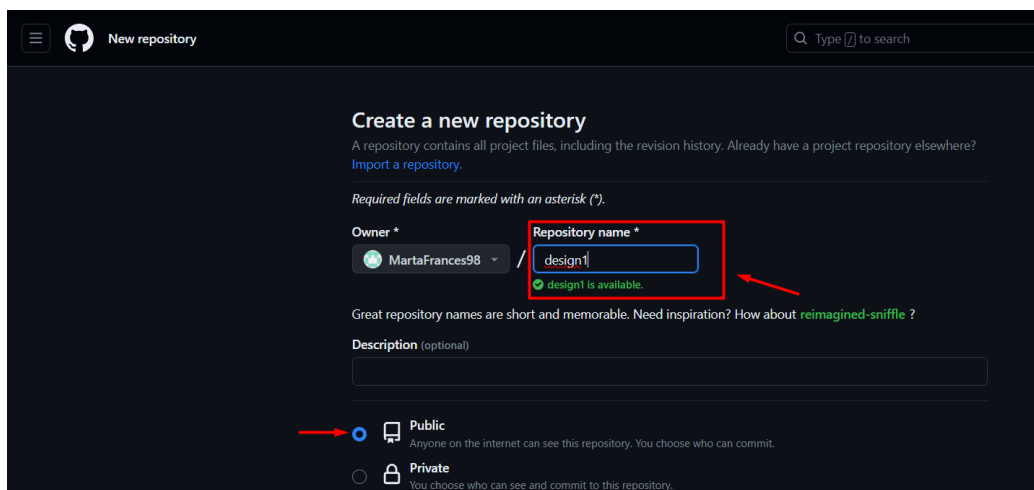

I created a new repository in github with an other name because when i created de first repository i did not take screenshots of the process.

Screenshot 1:

The first thing to do is to create a new repository, for this we click on the green "New" button.

Screenshot 2:

It will redirect us to create the repository, in "Repository name" we put the name we want, in our case we will put "desing1". Then we will mark the option "Public".

INTERZACES DESIGN

Screenshot 3:

☒ **Public**
Anyone on the internet can see this repository. You choose who can commit.

☐ **Private**
You choose who can see and commit to this repository.

Initialize this repository with:

☐ **Add a README file**
This is where you can write a long description for your project. [Learn more about READMEs.](#)

Add .gitignore
.gitignore template: **None** ▾

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

Choose a license
License: **None** ▾

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)

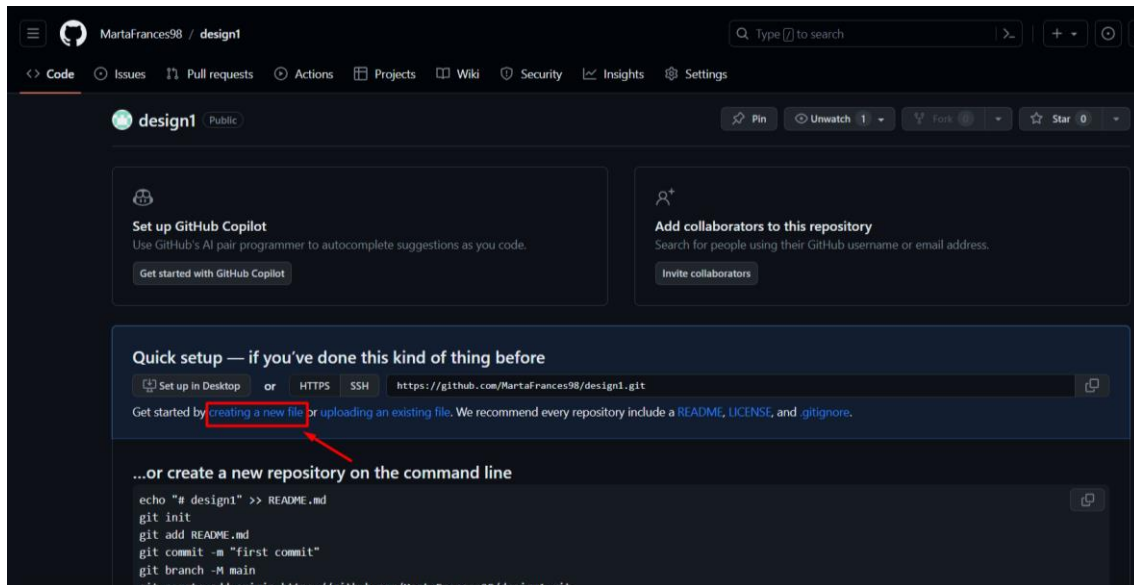

ⓘ You are creating a public repository in your personal account.

Create repository

Once this is done, click on "Create repository".

DEPLOY THE WEB SITE

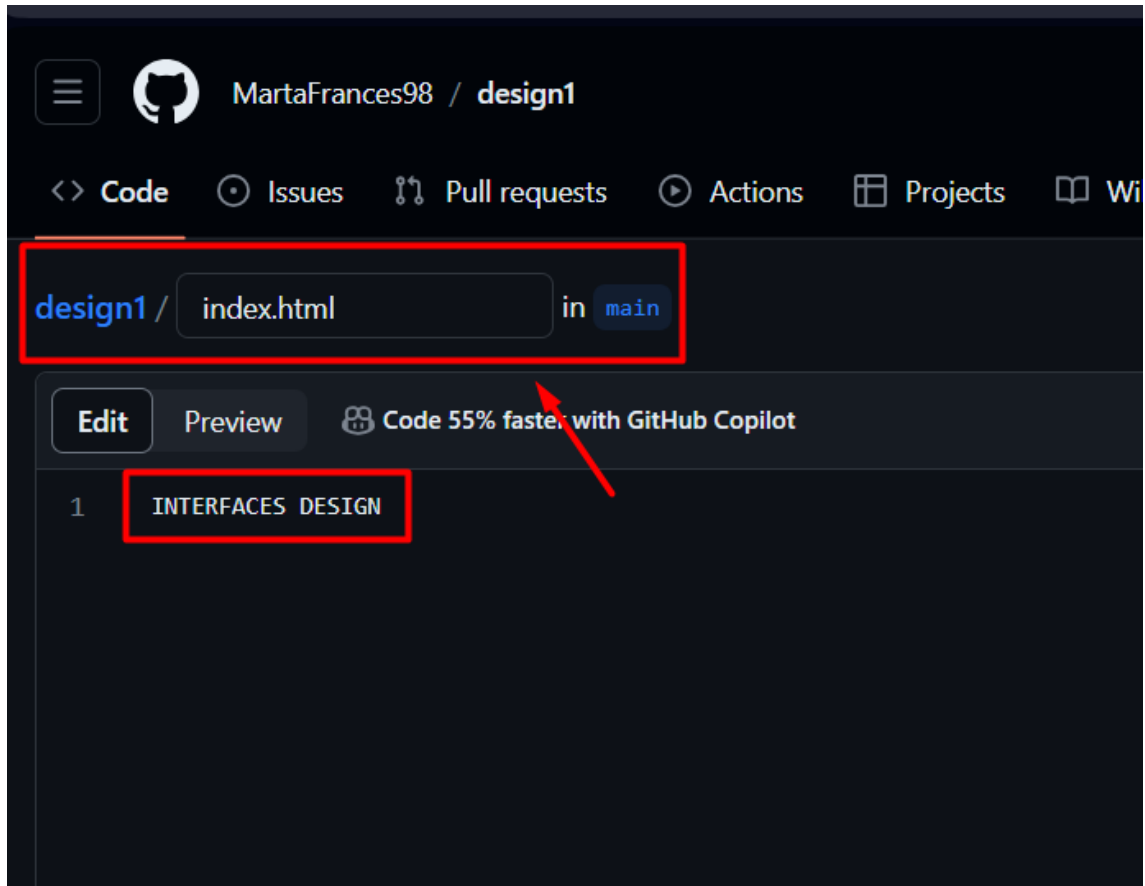

Screenshot 4:

When we create the repository we must create a new file, click on "Creating a new file".

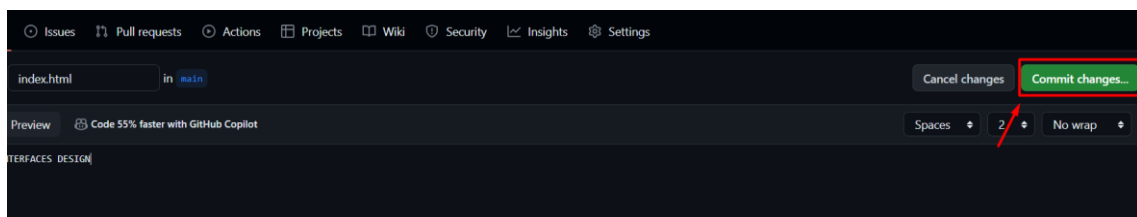

INTERZACES DESIGN

Screenshot 5:

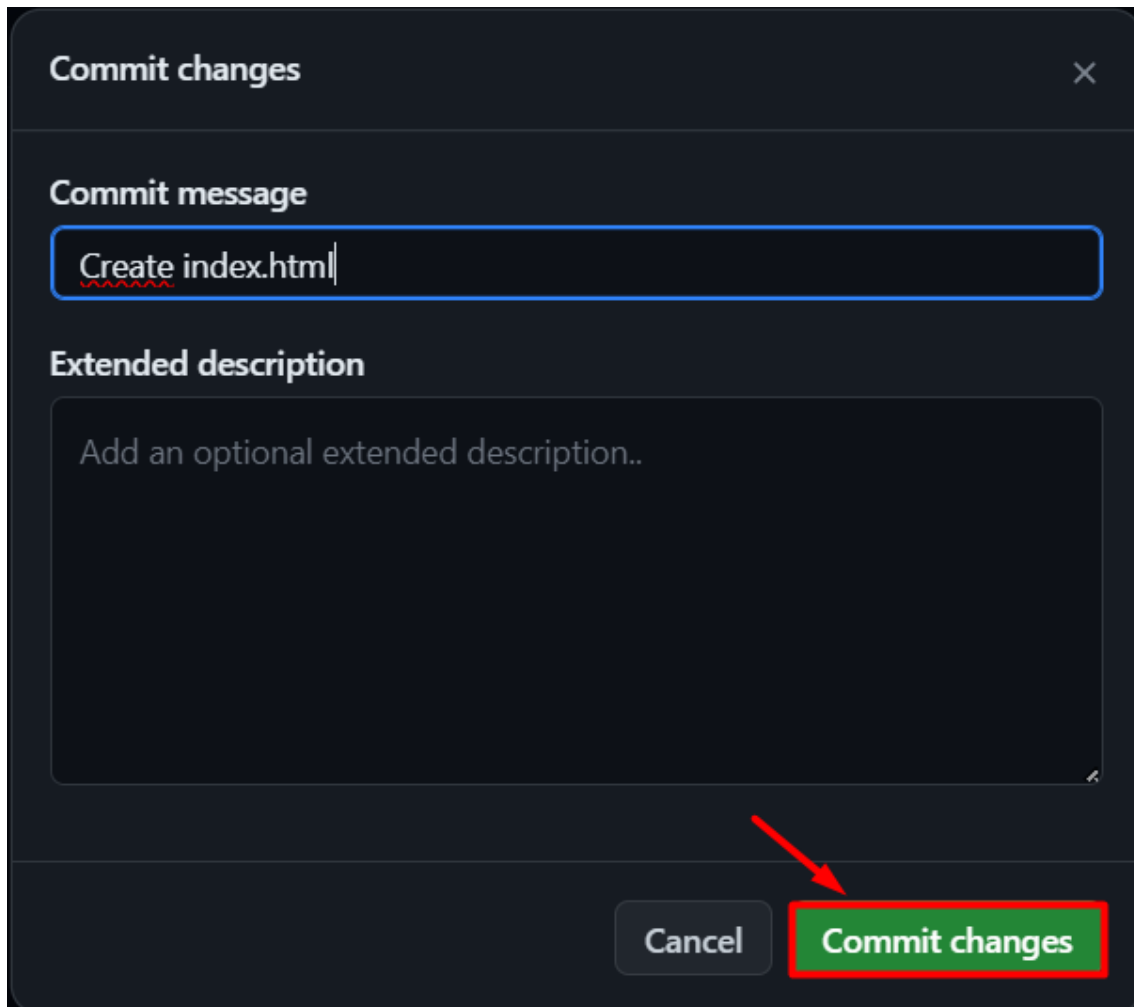

We will name it "index.html" and fill it in.

Screenshot 6:

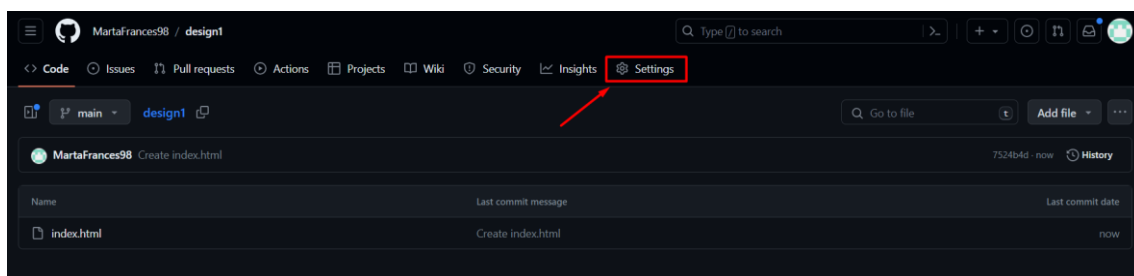

Click on "Commit changes..." to save the file.

Screenshot 7:

It will ask us for a commit message and we will click on "Commit changes" to save the file.

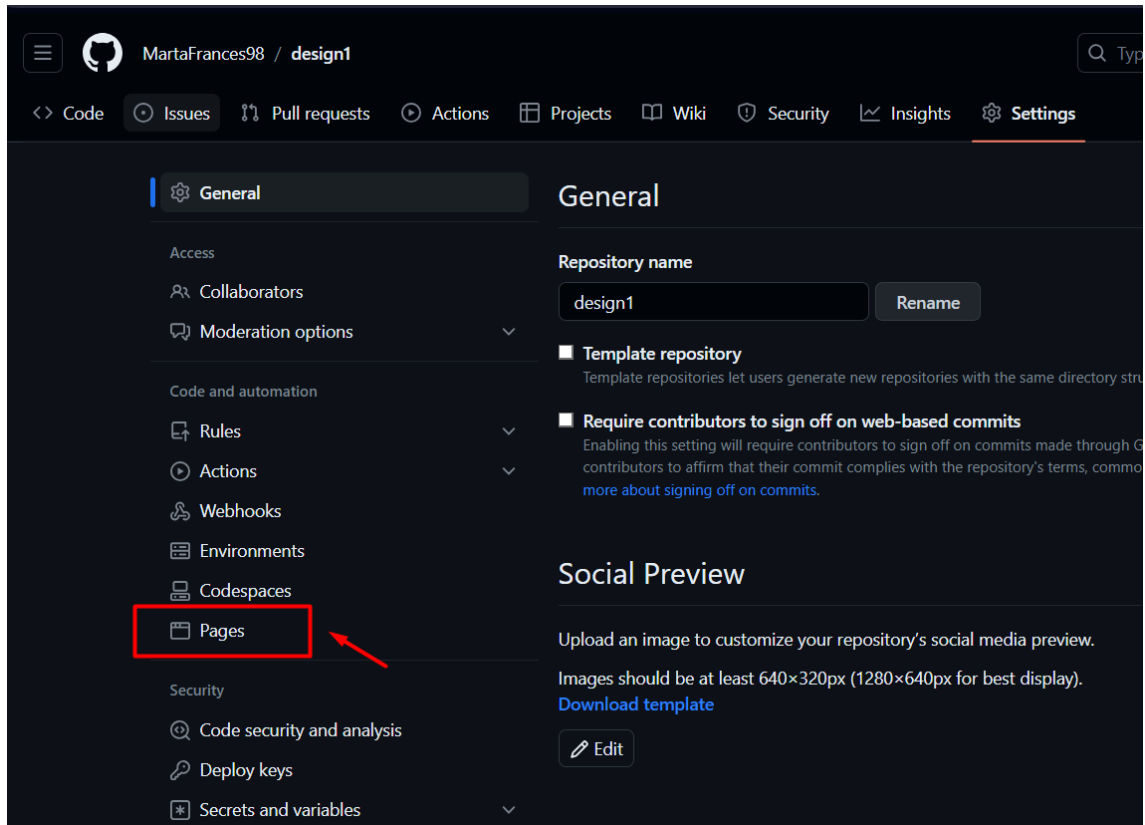

Screenshot 8:

Once the file is created we go to the "Settings" tab.

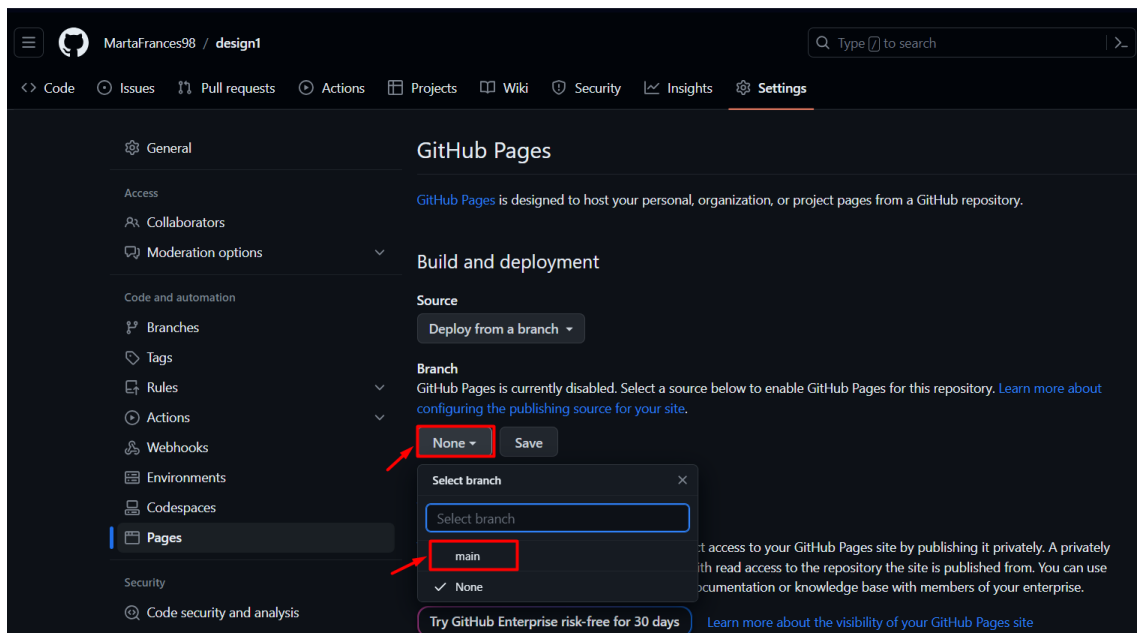

INTERZACES DESIGN

Screenshot 9:

Then we go to the "Pages" section.

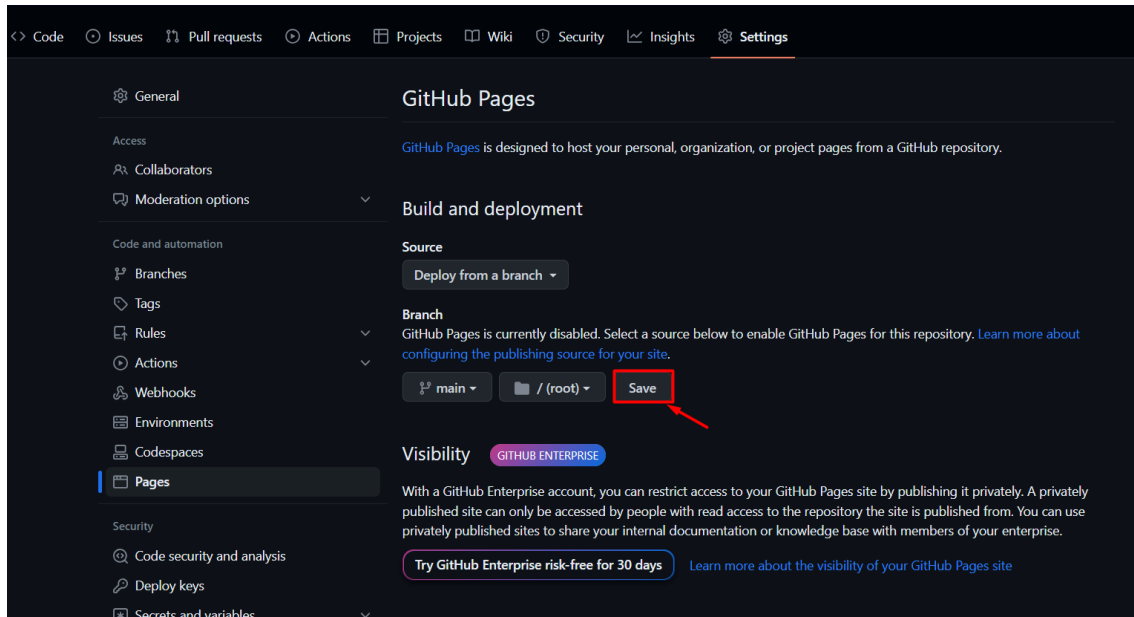

Screenshot 10:

Nos dirigimos "Build and deployment/Branch" en "None" seleccionamos "main".

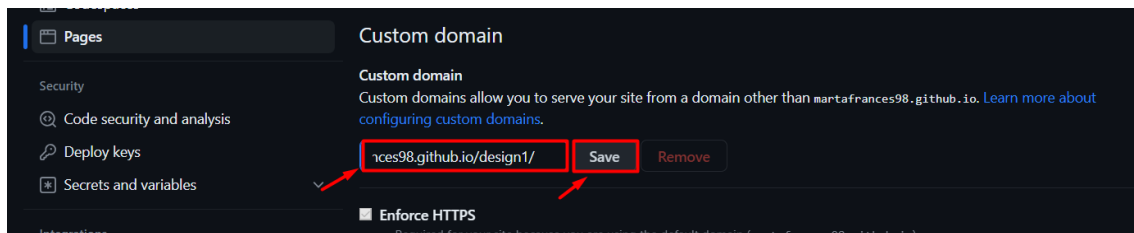

INTERZACES DESIGN

Screenshot 11:

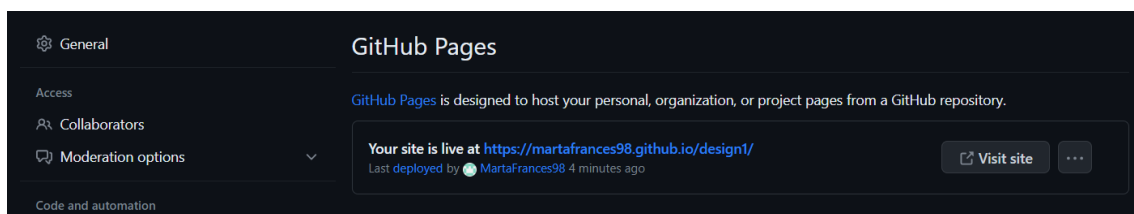

Once "main/root" is selected, click on "Save".

Screenshot 12:

In "Custom domain" we will give the name that we want to put to the domain and then we give to "Save".

Screenshot 13:

Once done the previous thing in the section "General" the web of our repository will appear to us.
